CHAPTER 2

Graded Assignment: Final course quiz: React Native

The screenshot shows a browser window for a graded assignment on Coursera. The title bar reads "Final course quiz: React Native | Coursera". The URL is "https://www.coursera.org/learn/react-native-course/assignment-submission/F089e/final-course-quiz-react-native/view-feedback". On the left, there's a sidebar with icons for back, forward, search, and other course navigation. The main content area displays the grade: "Your grade: 90%". Below it, it says "Your latest: 90% • Your highest: 90% • To pass you need at least 80%. We keep your highest score." A blue button on the right says "Next item →". The quiz consists of two questions. Question 1 asks if the `View` component is a core component of React Native; it has two options: "False" (radio button) and "True" (radio button, selected). A green feedback box indicates it's correct, stating: "Correct! The `View` component is a core component of React Native and can have 0 to many children of any type." Question 2 asks if using Expo CLI makes setup easier; it also has two options: "False" (radio button) and "True" (radio button, selected). Another green feedback box indicates it's correct, stating: "Correct! The Expo CLI is much easier to set up, and you will not need to touch any native code or". The top right corner shows a due date: "Due Nov 25, 2:59 PM +07".
